Hi Everyone –

I took a quick jab at writing up a short briefing document that Alex could use during Thursday's briefing. I pulled language from our website, the comment document and the document that Kaitlin sent around. I spoke with Kaitlin and she requested that she be copied, just in case she is able to help out. Let me know if you have any comments. I'm in meetings for much of this afternoon and tomorrow morning, however I'll try my best to make modifications between meetings.

Thanks much,
Bo

Subject: 24(c) Administrator briefing materials needed by 11/5 noon

Hi All,

Alex and Tate are now meeting with the Administrator on Thursday to brief on 24(c)s. They would like a one(ish) pager that includes: background/history of SLNs, current status, and examples--both generally how they are used/why needed and if there's an actual or at least theoretical example of a more restrictive 24(c) other than dicamba.

In lieu of starting from scratch, I'm wondering if the attached could just be trimmed down on options with where we are and a few examples added in. We'll need something for Alex to review **by noon tomorrow**.

Looping in PRD for awareness as they will also be discussing M-44, but I have confirmed they have all they need there.

Thanks,
Kaitlin
